Environmental Management Policy

Classification: Public

Introduction and Objective

At No Entry Fire & Security Limited, we are a provider of fire and security solutions based in Brighouse, West Yorkshire Our core services include the installation, maintenance, and servicing of fire alarms, security systems, CCTV, and access control systems. We acknowledge that our business activities result in emissions to air, water, and the generation of waste. Our goal is to meet all applicable environmental regulations, minimise our environmental footprint, and operate with a strong commitment to sustainability. This policy outlines the steps we will take to achieve these goals.

Responsibilities

This policy applies across all areas of our business, including management, office operations, site activities, and procurement. **Ryan Thornton, Compliance Manager** holds overall responsibility for ensuring that the necessary resources are provided to achieve our environmental targets and ensure that this policy is effectively implemented.

Ryan Thornton, Compliance Manager is tasked with the day-to-day oversight of the policy's implementation, ensuring compliance, and evaluating the effectiveness of our environmental goals. However, all staff members are expected to contribute to the success of this policy by supporting its objectives within their roles.

Objectives

We aim to:

- **Reduce Vehicle Emissions:** By optimising work schedules to minimise mileage and ensuring the regular servicing of all company vehicles.
- **Minimise Waste Generation:** By controlling the amount of stock held, ensuring that all jobs are accurately scoped, and reducing material wastage.
- **Maximise Recycling Efforts:** By recycling paper, cardboard, plastic, and metal waste generated across our offices and sites.
- **Reduce Paper Usage:** By increasing the use of electronic communications, digital documentation, and minimising paper-based processes.
- **Decrease Energy Consumption:** By closely monitoring energy usage in our offices and operations, and educating staff on energy-saving practices and basic housekeeping measures.

Monitoring and Review

We will track our progress toward these environmental goals through:

- **Annual Reviews:** A yearly review of this Environmental Management Policy and the associated procedures, making updates as required.
- **Internal Audits:** Regular internal audits to ensure our environmental practices are being followed.
- **Performance Tracking:** Ongoing monitoring of environmental objectives and performance indicators.
- **Supplier Evaluation:** We will assess the environmental practices of our suppliers to ensure that sustainable practices are upheld throughout our supply chain.

Communication

This Environmental Management Policy will be available on Dropbox and the Company Website. All members of staff will be trained on the environmental responsibilities associated with their role, and any updates or revisions to the policy will be communicated via email or during team meetings.
